

Hamburg is the host city of the ITS World Congress 2021

November 1, 2017 – Montreal, Canada

Four European cities presented their bid to host the Intelligent Transport Systems (ITS) World Congress in 2021. The City of Hamburg was selected by the ERTICO – ITS Europe Supervisory Board as the host for the 28th edition of the ITS World Congress. The official announcement of Hamburg winning the bid was made on 31 October 2017 during the ITS World Congress in Montreal, Canada. The 28th ITS World Congress, is set to take place in the refurbished Congress Centre in Hamburg (CCH) in October 2021 with the four focal themes “automated and connected driving”, MaaS – Mobility as a service”, “Ports and Logistics” as well as “intelligent infrastructure”.

“We are excited to officially announce that the City of Hamburg will host the 28th ITS World Congress in 2021; Hamburg had an exceptional proposal which highlighted the incredible developments of the city in finding smart mobility solutions through their ITS strategic plan. We, as ERTICO, look forward to a fruitful collaboration with the city and all the other Partners involved” says Jacob Bangsgaard, CEO of ERTICO – ITS Europe.

The City of Hamburg presents itself with the claim “COS it’s Hamburg – City of Solutions”, and together with a delegation of high level executives from Volkswagen Group, ITS Deutschland and Hermes GmbH visited the ERTICO premises on 15 March to show support to the City of Hamburg and officially hand over the bid to host the 28th ITS World Congress in 2021. Already at the beginning of the process, the Hamburg’s ITS World Congress 2021 bid received the support of over 100 partners in Europe, including national government, local authorities, and the ITS National Associations.

The announcement was officialised at the presence of Frank Horch, Senator for Economy, Transport and Innovation of the Free and Hanseatic City of Hamburg and Harry Evers, Managing Director of ITS Deutschland GmbH.

Senator Frank Horch: “We are very proud of hosting the World Congress in 2021. The City of Hamburg is very ambitious and wants to become Germany’s model city for urban mobility and logistics solutions. Thanks to all who supported our bid. We will work hard to confirm your confidence”.

ERTICO – ITS Europe will now start working with the City of Hamburg and all the other interested parties to define the programme of over 300 sessions.

About the ITS World Congresses in Europe

ERTICO - ITS Europe organises either a ITS World Congress or an ITS European Congress every year. The ITS World Congress rotates between Europe, the Asia Pacific region and the Americas, returning to Europe every three years.

The Congresses bring together global leaders, industry experts, research scientists, and academic leaders to create new solutions to transport challenges through the spread of ITS (Intelligent Transport Systems). The Congresses also showcase the latest ITS achievements from the city and region hosting the Congress, and can help increase awareness of ITS in the Host region itself.

The ITS Congresses consist of three main areas:

- Congress programme sessions and presentations of the latest developments in ITS
- Demonstrations – showcases of current ITS technology being developed and deployed throughout the world)
- Exhibition – exhibition booths and dedicated sessions

About ERTICO – ITS Europe

ERTICO – ITS Europe is a public-private membership-driven organisation promoting, developing and deploying Intelligent Transport Systems (ITS) in Europe to save lives, protect the environment and sustain mobility in the most cost-effective way. The organisation was founded in 1991 at the initiative of 15 leading members of the European Industry. Now, with 120 Partners, ERTICO connects public authorities, industry players, infrastructure operators, users, national ITS associations and other organisations and works to “Shape intelligent mobility for Europe together”. www.ertico.com
