Experience Future Mobility Now
ERTICO – ITS Europe, the City of Hamburg and the German Federal Ministry of Transport and Digital Infrastructure invite you to the 28th ITS World Congress from 11–15 October 2021.
The ITS World Congress is the most important international industry event in the field of Intelligent Transport Systems and Services (ITS). From 11–15 October 2021, thought leaders, developers, entrepreneurs and decision makers from the transport, logistics and IT industries will meet at the Hamburg Congress Center and Hamburg Messe fair ground.

The future of mobility is right around the corner, with new developments to experience, apply and understand. In Hamburg, a vibrant international trade hub and model region for intelligent transport and logistics, numerous innovative projects already demonstrate what the future holds.

Autonomous driving, shared and multimodal transport and the usage of unmanned aerial vehicles in logistics and mobility are just a few of the fast evolving transport trends that will be discussed at the 2021 Congress. Modern cities are facing numerous challenges including population growth, traffic jams, lack of parking space, emissions and globalised logistics. Often they have to meet ambitious targets for addressing climate change, economic growth and urban development.

The ITS World Congress is the international platform to showcase big ideas and innovative solutions.

Come to Hamburg in 2021 to experience the future mobility as envisioned by smart mobility experts from around the world.

Some key areas of the ITS World Congress in Hamburg are:

- automated and connected driving
- MaaS – Mobility as a Service
- ports and logistics – next generation goods delivery
- intelligent infrastructure
- UAM – Urban Air Mobility
- sustainable transport

Moreover, Future Technology Trends and Cybersecurity will be part of all discussions.
